Explanation of profit fluctuations
in separate financial statements in
the first 6 months of 2026 after
review and compared to the same
period last year

To: - The State Securities Commission;
- Ho Chi Minh City Stock Exchange.

Company: 3-2 Investment and Construction Joint Stock Company

Stock code: C32

Head Office Address: No. 45A, Nguyen Van Tiet Street, Lai Thieu Ward, Ho Chi Minh City.

Phone: 0274.3759446

Fax: 0274.3755605

Pursuant to Circular 96/2020/TT-BTC dated 11/11/2020 of the Ministry of Finance guiding the disclosure of information on the securities market;

Based on the reviewed separate financial statements for the first 6 months of 2026 of 3-2 Investment and Construction Joint Stock Company.

3-2 Investment and Construction Joint Stock Company would like to explain the fluctuation of after-tax profit in the first 6 months of 2026 after review and compared to the same period in 2025 as follows:

Profit After tax	After the audit	Before the audit	% Spread
Separate reports	-25.645.432.058	-25.645.432.058	0%

Profit After tax	The first 6 months of 2026	The first 6 months of 2025	% Spread
Separate reports	-25.645.432.058	-183.200.784	+13.899%

Causes:

Profit after tax in the first 6 months of 2026 before review was negative VND 25,645,432,058, this result did not change after review (0% difference).

The Company's total accounting profit after tax in the first 6 months of 2026 was negative VND 25,645,432,058, an increase of 13,899% over the same period last year, mainly due to:

Net revenue from sales and services decreased by VND 3,920,028,147 (equivalent to a decrease of 1.93%,) while the cost of goods sold decreased by VND 4,670,225,797 (equivalent to a decrease of 2.71%), making Gross Profit from sales and service provision increase slightly by VND 750,197,650 (equivalent to an increase of 2.47%) over the same period last year, mainly due to construction activities and box sewer sales.

Financial expenses increased by VND 38,338,997,426 (equivalent to an increase of 860.26%) over the same period last year, mainly due to the fact that in this period, the Company set aside provisions for investment in Thu Duc - Long An Centrifugal Concrete Joint Stock Company in the amount of VND 35.3 billion, provision expenses for depreciation of business securities increased by VND 1.5 billion and interest expenses increased by VND 1.4 billion due to more borrowing to serve business activities.

Selling expenses decreased by 1,755,971,025 VND (equivalent to a decrease of 12.22%) over the same period last year, mainly due to a decrease in sales volume in this period, leading to a corresponding decrease in car rental and gasoline costs for transportation.

Other expenses decreased by 17,532,786,483 VND (equivalent to a decrease of 86.36%) because in the previous period, the Company recorded additional expenses for granting mineral exploitation rights at Tan Dong Hiep construction quarry with a total amount of 19,669,316,603 VND.

Summarizing the main reasons mentioned above, the Company's total accounting profit after tax in this period decreased sharply compared to the previous period.

The above are some of the main reasons affecting production and business results, leading to fluctuations in profits in separate financial statements in the first 6 months of 2026 after audit and compared to the same period in 2025./.

Best regards!

AUDITORS

The auditors of AASC Auditing Firm Company Limited have taken the review of Interim Separate Financial Statements for the Company.

STATEMENT OF THE BOARD OF MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM SEPARATE FINANCIAL STATEMENTS

We, the Board of Management is responsible for the Interim Separate Financial Statements which give a true and fair view of the financial position of the Company, its operating results and its cash flows for the period. In preparing those Interim Separate Financial Statements, the Board of Management is required to:

- Establish and maintain an internal control system which is determined necessary by the Board of Management and the Board of Directors to ensure the preparation and presentation of Interim Separate Financial Statements do not contain any material misstatement caused by frauds or errors;
- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Interim Separate Financial Statements;
- Prepare and present the Interim Separate Financial Statements on the basis of compliance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of the interim financial statements;
- Prepare the Interim Separate Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

We are responsible for ensuring that accounting records are kept to reflect the financial position of the Company, with reasonable accuracy at any time and to ensure that the Interim Separate Financial Statements comply with the current State's regulations. It is responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

We confirm that the Interim Separate Financial Statements give a true and fair view of the financial position at 30 June 2026, its operation results and cash flows for the six-month period then ended of the Company in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of the Interim Financial Statements.

OTHER COMMITMENTS

We confirm that our Company has fully complied with all disclosure obligations in accordance with the current laws of Vietnam.

REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

To: **Shareholders, Board of Directors and Board of Management**
3-2 Investment And Construction Joint Stock Company

We have reviewed Interim Separate Financial Statements of 3-2 Investment And Construction Joint Stock Company prepared on 28 August 2026, from page 05 to page 52 including: Interim Separate Statement of Financial position as at 30 June 2026, Interim Separate Statement of Income, Interim Separate Statement of Cash flows for the six-month period then ended and Notes to the Interim Separate Financial Statements.

Board of Management's Responsibility

The Board of Management is responsible for the preparation of Interim Separate Financial Statements that give a true and fair view in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to preparation and presentation of Interim Financial Statements and for such internal control as management determines is necessary to enable the preparation of Interim Separate Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on the Interim Separate Financial Statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditors' Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Separate Financial Statements do not give a true and fair view, in all material respects, of the financial position of 3-2 Investment and Construction Joint Stock Company as at 30 June 2026, and of its operating results and its cash flows for the six-month period then ended, in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of the Interim Separate Financial Statements.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS*For the period from 01/01/2026 to 30/06/2026***1 . GENERAL INFORMATION****1.1 . Forms of ownership**

3-2 Investment and Construction Joint Stock Company was established and operates under the Business Registration Certificate of a joint stock company No. 3700146225 issued by the Department of Finance of Binh Duong Province (now the Department of Finance of Ho Chi Minh City) for the first time on 24 December 2008, amended for the sixteenth (16) time on 11 February 2026.

The Company's head office is located at: 45A Nguyen Van Tiet Street, Lai Thieu Ward, Ho Chi Minh City.

The Company's Charter capital: VND 300,592,900,000; the actual contributed capital as at 30/06/2026 was VND 300,592,900,000; equivalent to 30,059,290 shares, par value is VND 10,000 per share.

The number of employees of the Company as at 30/06/2026 is 187 (as at 01/01/2026: 161).

1.2 . Business field

Manufacturing, constructing, trading, real estate trading and servicing.

1.3 . Business activities

Main business activities of the Company include:

- Manufacturing stone, concrete and bricks;
- Constructing works;
- Trading construction materials;
- Trading real estate;
- Leasing cars, construction tools.

1.4 . The Company's operation in the period that affects the Interim Separate Financial Statements

The Company's total net profit before tax for the six-month period ended 30/06/2026 amounted to VND 25,645,432,058, representing a significant decrease compared to the same period of the previous year, mainly due to the following reasons:

- Net revenue from sales of goods and provision of services decreased by VND 3,920,028,147 (equivalent to a decrease of 1.93%), while cost of goods sold decreased by VND 4,670,225,797 (equivalent to a decrease of 2.71%), resulting in a slight increase in Gross profit from sales of goods and provision of services of VND 750,197,650 (equivalent to an increase of 2.47%) compared to the same period of the previous year. This was mainly attributable to construction activities and the sale of box culverts;
- Financial income decreased by VND 1,087,269,632 (equivalent to a decrease of 15.11%) compared to the same period of the previous year, mainly due to lower dividend income and profit from investment trust agreements during the current period;
- Financial expense increased by VND 38,338,997,426 (equivalent to an increase of 860.26%) compared to the same period of the previous year, mainly due to the Company's recognition of an impairment provision for its investment in Thu Duc - Long An Centrifugal Concrete Joint Stock Company amounting to VND 35.3 billion, an increase of VND 1.5 billion in provision for diminution in value of trading securities, and an increase of VND 1.4 billion in interest expenses due to higher borrowings to support business activities;
- Selling expenses decreased by VND 1,755,971,025 (equivalent to a decrease of 12.22%) compared to the same period of the previous year, mainly because the volume of culverts sold during the current period decreased, resulting in corresponding decreases in vehicle rental and fuel expenses for transportation;
- General and administrative expenses increased by VND 3,567,154,382 (equivalent to an increase of 78.99%) compared to the same period of the previous year, mainly because the reversal of the allowance for receivables during the current period was lower than that in the previous period;
- Other income decreased by VND 2,507,764,992 (equivalent to a decrease of 42.27%) as the Company disposed of a number of assets in the previous period, meanwhile, during the current period, the Company received compensation of VND 3.2 billion for the return of the site to the State;
- Other expenses decreased by VND 17,532,786,483 (equivalent to a decrease of 86.36%) as, in the previous period, the Company recognized additional expenses for mineral exploitation rights at the Tan Dong Hiep construction stone quarry, amounting to VND 19,669,316,603.

In summary, the above-mentioned key factors resulted in a significant decrease in the Company's total net profit before tax for the current period compared to the previous period.

2 . ACCOUNTING SYSTEM AND ACCOUNTING POLICY**2.1 . Accounting period and accounting currency**

Annual accounting period commences from 1 January and ends as at 31 December.

The Company maintains its accounting records in VND.

2.2 . Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Company applies Corporate Accounting System issued under Circular No. 99/2025/TT-BTC dated 27/10/2025 by the Ministry of Finance.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. The Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3 . Changes in accounting policies and notes

On 27/10/2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the Vietnamese Accounting System for Enterprises, replacing Circular No. 200/2014/TT-BTC dated 22/12/2014 and Circular No. 53/2016/TT-BTC dated 21/03/2016 amending and supplementing some articles of Circular No. 200/2014/TT-BTC. The Circular is effective for annual accounting periods beginning on or after 01/01/2026.

The Company has adopted the applicable requirements of Circular No. 99/2025/TT-BTC effective from 01/01/2026 on a prospective basis. The Circular introduced changes in the presentation of items in the Financial Statements. The comparative information is reclassified to conform to the current period's presentation. Details on the reclassification of comparative information are disclosed in Note No. 42 of the Interim Separate Financial Statements.

2.4 . Basis for preparation of Interim Separate Financial Statements

Interim Separate Financial Statements are presented based on historical cost principle.

The Users of this Interim Separate Financial Statements should study the Interim Separate Financial Statements combined with the Interim Consolidated Financial Statements of the Company and its subsidiaries for the period from 01/01/2026 to 30/06/2026 in order to gain enough information regarding the financial position, operating results and cash flows of the Company.

2.5 . Accounting estimates

The preparation of the Interim Separate Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the end of the accounting period and the reported amounts of revenues and expenses during the accounting period.

The estimates and assumptions that have a material impact in the Interim Separate Financial Statements include:

- Allowance for doubtful debts;
- Allowance for devaluation of inventory;
- Provision for payables;
- Estimated allocation of prepaid expenses;
- Estimated useful life of fixed assets;
- Classification and allowance of financial investments;
- Estimate the percentage of completion of revenue;
- Estimated corporate income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are assessed by the Board of Management to be reasonable under the circumstances.

2.6 . Financial Instruments

Initial recognition

Financial assets

Financial assets of the Company include cash and cash equivalents, trade receivables and other receivables, lendings, short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

Financial liabilities

Financial liabilities of the Company include borrowings, trade payables and other payables, accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expense directly related to the issuance of those liabilities.

Subsequent measurement after initial recognition

Financial assets and financial liabilities are not revalued according to fair value at the end of the period because the prevailing statutory regulations require to present Financial statements and Notes to financial instruments but not provide any relevant instruction for assessment and recognition of fair value of financial assets and financial liabilities.

2.7 . Cash and cash equivalents

Cash comprises cash on hand, demand deposits

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

2.8 . Financial investments

Trading securities are initially recognized at fair value of the payments at the time the transaction occurs. Costs incurred in purchasing trading securities (if any) such as brokerage, transaction fee, cost of information allowance, taxes, bank's fees and charges,... are recognized in the financial expenses in the period. After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities.

Investments held to maturity comprise term deposits held to maturity to earn profits periodically .

Investments in subsidiaries, associates are initially recognized at original cost. After initial recognition, value of these investments is measured at original cost less provision for devaluation of investments.

Investments in other entities comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less allowance for devaluation of investments.

Allowance for devaluation of investments is made at the end of the period as follows:

- Investments in trading securities: allowance shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the allowance date.
- Investments in subsidiaries, joint ventures or associates: allowance shall be made based on the Financial Statements of subsidiaries, joint ventures or associates at the allowance date.
- Long-term investments (other than trading securities) without significant influence on the investee: If the investment in listed shares or the fair value of the investment is determined reliably, allowances shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, allowance shall be made based on the Financial Statements at the allowance date of the investee.
- Investments held to maturity: allowance for impairment of held to maturity investments shall be made based on the recovery capacity in accordance with statutory regulations.

2.9 . Receivables

The receivables shall be recorded in detail in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the Interim Separate Financial Statements according to their remaining terms at the reporting date.

The allowance for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the allowances for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating the possible losses.

2.10 . Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, if the net realizable value of inventories is lower than the original price, inventories must be valued according to the net realizable value at the reporting date of Interim Separate Financial Statements.

Net realizable value is estimated based on the selling price of the inventories less the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated using weighted average method.

Method for valuation of work in process at the end of the period:

- For construction activities: The value of work in progress is recorded for each construction project which is incomplete or revenue is unrecognised, corresponding to the amount of work in progress at the end of the period.
- For production activities: The value of work in progress is recorded based on actual cost incurred for each for each unfinished product.

Allowance for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over its net realizable value.

2.11 . Construction contract

Construction contract is a contract agreed for acquisition of an asset or combined assets closely relevant or mutually dependent on their design, technology, function or basic using purpose.

When the outcome of the construction contracts is reliably estimated and the contractors are paid according to the planned progress, revenue and costs associated with the construction contract are recognized in accordance with the percentage of completion method, based on the customer's acceptance of completed work.

When the results of the contract implementation cannot be reliably estimated, contract revenue is recognized only to the extent that contract costs incurred are expected to be reliably recoverable, contract costs are only recognized as actually incurred.

2.12 . Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation/ amortization and carrying amount.

Subsequent measurement after initial recognition

If these costs augment the future economic benefits obtained from the use of tangible fixed assets beyond their initial standards conditions, they are capitalized as an increase in the historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the Interim Separate Statement of Income in the period in which the costs are incurred.

Fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	05 - 22 years
- Machinery, equipment	05 - 18 years
- Vehicles, transportation equipments	06 - 10 years
- Office equipments and furnitures	03 - 04 years
- Land use rights	30 - 47 years
- Managerment softwares	03 - 05 years

2.13 . Invesment properties

Investment properties are initially recognised at historical cost.

Investment properties held for capital appreciation prior to 01/01/2015 are depreciated on a straight-line basis similar to other assets, but from 01/01/2015 they are not depreciated.

Investment properties held for operating lease are recorded at cost, accumulated depreciation and carrying amount. In which, depreciation is calculated on a straight-line basis with expected useful lives as follows:

- Buildings, structures	15 - 19 years
- Infrastructure	06 years
- Land use rights	15 - 47 years

An item of owner-occupied property or inventories only becomes an investment property when its using purpose has been changed, evidenced by commencement of stopping using that item and starting to operate leasing for the third party or completing the construction stage. The investment property is transferred to owner-occupied property or inventories only where it undergoes a change in use, evidenced by commencement of starting using the assets by owner or development with a view to sale. The transferring from investment property to owner-occupied property or inventories will not change the original cost and carrying amount of the property as at the date of transfer.

2.14 . Construction in progress

Construction in progress includes fixed assets which are being purchased and constructed but incomplete as at the end of the accounting period and is recognised in historical cost. This includes costs of construction, installation of machinery and equipment and other direct costs.

2.15 . Operating lease

Operating lease is fixed asset leasing in which a significant portion of the risks and rewards of ownership are retained by the lessor. Payments made under operating leases are charged to Statement of Income on a straight-line basis over the period of the lease.

2.16 . Deferred expenses

The expenses incurred but related to operating results of several accounting periods are recorded as deferred expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term deferred expenses to operating expenses in each accounting period should be based on the nature and level of those expenses to select a reasonable allocation method and criteria.

Types of deferred expenses of the Company include:

- Deferred land rental expenses include prepaid land rental, including those related to leased land for which the Company has received certificate of land use right but not eligible for recording as intangible fixed asset in accordance with current regulations. These expenses are recognized in the Interim Separate Statement of Income on a straight-line basis according to the lease term of the land lease contract.
- Tools and supplies include assets which are possessed by the Company to use in an ordinary course of business, with historical cost of each asset less than 30 million dongs and therefore not eligible for recording as fixed asset under current legal regulations. The historical cost of tools and supplies are allocated on the straight-line basis over a period from 03 to 84 months.
- Repair expenses are recorded at their original costs and allocated on the straight-line basis from 03 to 36 months.
- Other deferred expenses are recorded at their original costs and allocated on the straight-line basis over their expected useful lives from 06 to 36 months.

2.17 . Payables

The payables shall be recorded in detail in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company. The payables shall be classified into short-term payables or long-term payables on the Interim Separate Financial Statements according to their remaining terms at the reporting date.

2.18 . Dividend and profit payables

Dividend and profit payables (in cash or non-monetary assets) are recognized when the Company has no unconditional right to avoid the obligation to pay dividends and profits to shareholders and capital-contributing members of the Company according to relevant laws.

The recognition time is when the investee has no unconditional right to avoid the distribution of dividends: after the announcement of dividend payment from the Board of Directors of the Company and the announcement of the record date for dividend payment of Vietnam Securities Depository and Clearing Corporation.

2.19 . Borrowings

Borrowings shall be recorded in detail in terms of lending entities, loan agreements and terms of borrowings. In case of borrowings denominated in foreign currency, they shall be recorded in detail in terms of types of currency.

2.20 . Borrowing costs

Borrowing costs are recognized as operating expenses in the period, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 "Borrowing costs".

2.21 . Accrued expenses

Accrued expenses of the Company include payables to goods or services received from the suppliers or provided for the buyers during the reporting period, but the payments for such goods or services have not been made and other payables such as: accrued construction expenses, interest expenses... These payables are recorded as operating expenses of the reporting period.

2.22 . Provision for payables

Provision for payables is only recognized when meeting all of the following conditions:

- The Company has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably.

Value recorded as a provision for payables is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting period.

Only expenses related to the previously recorded provision for payables shall be offset by that provision for payables.

Provision for warranty obligation of construction project is estimated from 0.19% to 0.45% on value of the project based on the specification of each project and evaluation made by the Board of Management on actual time and expenses for warranty.

Provisions for payables are recognized as operating expenses of the accounting period. In case the provision made for the previous accounting period but not used up exceeds the one made for the current period, the difference is reversed against operating expenses in the period.

2.23 . Owner's equity

Owner's equity is stated at the actual contributed capital of the owners.

Share premium is recorded at the difference between the par value, costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing repurchased own shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Repurchased own shares bought by the Company before the effective date of the Securities Law No. 54/2019/QH14 (01/01/2021) have not been cancelled and may be re-issued subsequently in accordance with the Law on Securities. Repurchased own shares bought by the Company after 01/01/2021 will be cancelled and adjusted to reduce owner's equity of the Company.

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profits appropriation or loss handling of the Company.

2.24 . Revenues

Revenue is recognized to extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discounts, sales discounts, and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

Revenue from sale of goods

- The majority of risks and benefits associated with the right to own the products or goods have been transferred to the buyer;
- The Company no longer holds the right to manage the goods as the goods owner, or the right to control the goods.

Revenue from provision of services

- The percentage of completion of the transaction at the Interim Separate Statement of Financial Position date can be measured reliably.

Revenue from construction contracts

Revenue from construction contracts comprises the initial amount of revenue agreed in the contract; plus any variations in contract work; incentive payments; claims that the Company receives from customers or other parties to compensate for expenses not included in the contract price, claims that customers will agree to compensate, and other payments if these are likely to result in revenue and are capable of being reliably measured. The principles for recognizing revenue from construction contracts are presented in Note 2.11.

Financial income

Financial income include income from assets yielding interest, dividends, profits and other financial gains by the company shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The amount of the revenue can be measured reliably.

Dividend and profit income shall be recognised when the Company's right to receive dividend or profit from capital contribution is established.

2.25 . Revenue deductions

Revenue deductions from sales of goods and provision of services arising in the period is sales returns.

Sales return incurred in the same period of sale of products, goods and provision of services are recorded as a decrease in revenue in the incurring period. In case products, goods and services are sold in the previous periods, but until the next period they are incurred as deductible items, the Company records the decrease in revenue under the following principles: If it is incurred prior to the issuance of the Interim Separate Financial Statements, it is then recorded as a decrease in revenue on the Interim Separate Financial Statements of the reporting period (the previous period); and if it is incurred after the issuance of the Interim Separate Financial Statements, it is recorded as a decrease in revenue of incurring period (the next period).

2.26 . Cost of goods sold and provision of services

Cost of goods sold and provision of services are cost of finished products, goods, materials sold or services rendered during the period, and are recognized in matching with the revenue generated in the period and ensuring compliance with the prudence principle. Cases of loss of materials and goods exceeded the norm, abnormal expenses, labour cost and fixed manufacturing overheads not allocated to the value of inventory, allowance for devaluation of inventory, abnormal losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the period even when products, merchandises have not been determined as sold.

2.27 . Financial expenses

Items recorded into financial expenses comprise:

- Expenses or losses relating to financial investment activities;
- Borrowing costs;
- Losses from the disposal and transfer of short-term securities, transaction cost of selling securities;
- Allowance for diminution in value of trading securities, allowance for losses from investment in other entities.

The above items are recorded by the total amount arising in the period without offsetting against financial income.

2.28 . Selling expenses, General and administration expenses

Selling expenses comprise actual costs incurred in connection with the supply of goods and services.

General and administrative expenses comprise actual costs incurred for the general administration of the Company.

2.29 . Corporate income tax**a) Current corporate income tax expenses**

Current income tax expense includes the current corporate income tax expense in accordance with the Corporate Income Tax Law.

Current corporate income tax expenses are determined based on taxable income during the period and current corporate income tax rate in the current accounting period.

b) Current corporate income tax rate

For the period from 01/01/2026 to 30/06/2026, the Company applies the corporate income tax rate of 20% for business and production activities generating taxable corporate income.

2.30 . Related parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Organizations, directly or indirectly through one or more intermediaries, having control the Company, are controlled by the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel of the Company, the close family members of these individuals;
- Organizations that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises;
- Other organizations and individuals identified as related parties in accordance with current legal regulations.

In considering the relationship of related parties to serve for the preparation and presentation of Interim Separate Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.

2.31 . Segment report

A segment is a distinguishable component of the Company that is engaged in providing an individual or group of related products or services (business segment), or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from other ones.

Segment information should be prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company in order to help users of financial statements better understand and make more informed judgements about the Company as a whole.

2.32 . Other accounting principles and methods

Characteristics of the Investment Trust Contracts arising at the Company:

- Purpose: Individuals receive advances to carry out the transfer of land use rights as designated by the Company.
- Land use right certificates of individuals receiving advances formed from the Company's trusted funds will be handed over to the Company for management. Individuals are not allowed to transfer, donate, or inherit without the Company's approval. When the Company has a demand, the individual must immediately transfer the land use rights (which the Company has trusted for investment) back to the Company or the entity designated by the Company.
- All profits arising from transfer transactions belong to the Company.

The portion of loan interest cost which is non-deductible under Decree No. 132/2020/NĐ-CP dated 05/11/2020 issued by the Government, amended and supplemented by Decree No. 20/2025/NĐ-CP dated 10/02/2025, is carried forward to the next taxable period for the determination of total loan interest cost deductible if total loan interest cost deductible in the next taxable period is lower than the amount prescribed.

The loan interest costs may be carried forward for a maximum consecutive period of 05 years, counting from the year following the year in which non-deductible loan interest costs arise.

The actual loan interest costs carried forward to subsequent years for tax purposes will depend on the examination and approval of the tax authorities and may differ from the amounts presented in the Interim Separate Financial Statements. The loan interest costs exceeding 30% of EBITDA under regulations of Decree No. 132/2020/NĐ-CP dated 05/11/2020 issued by the Government, amended and supplemented by Decree No. 20/2025/NĐ-CP dated 10/02/2025, are estimated to be offset against the Company's future taxable income as follows:

The year in which non-deductible loan interest costs arise	Inspection status of tax authorities	Loan interest costs exceeding 30% of EBITDA which non-deductible in the following years	Non-deductible loan interest costs that have been used	Non-deductible loan interest costs will be carried forward to the next tax years
		VND	VND	VND
Year 2023	Non-inspection	7,716,027,026	6,487,484,319	1,228,542,707
Year 2024	Non-inspection	1,348,010,640	-	1,348,010,640
First 6 months of 2026	Non-inspection	4,078,034,865	-	4,078,034,865

The Board of Management assesses that the Company's ability to carry forward these non-deductible loan interest costs to subsequent years is uncertain. Therefore, no deferred tax assets related to these amounts have been recognized in the Statement of Financial Position of this period.

Tax losses can be carried forward to offset against future taxable income for a maximum consecutive period of 05 years, counting from the year following the year in which the tax losses arise. The actual tax losses carried forward to subsequent years for tax purposes will depend on the examination and approval of the tax authorities and may differ from the amounts presented in the Interim Separate Financial Statements.

The estimated tax losses that may be offset against the Company's future taxable income are as follows:

Year in which tax losses arise	Inspection status of tax authorities	Tax losses	Tax losses that have been used	Tax losses to be carried forward to subsequent years
		VND	VND	VND
Year 2023	Non-inspection	21,286,067,640	4,281,475,887	17,004,591,753
First 6 months of 2026	Non-inspection	23,263,380,717	-	23,263,380,717

The Board of Management assesses that the Company's ability to carry forward these taxable losses to subsequent years is uncertain. Therefore, no deferred tax assets related to these amounts have been recognized in the Interim Separate Statement of Financial position of this period.

38 . OTHER INFORMATION

(1) Detailed information relating to additional payment for mineral exploitation rights at Tan Dong Hiep construction stone quarry:

- On 05/06/2025, Binh Duong Provincial People's Committee (now Ho Chi Minh City People's Committee) issued Decision No. 1527/QĐ-UBND on approving the additional fee for granting mineral mining rights for the remaining reserves (reserves excluding protection pillars and safety zones in the mining design) at Tan Dong Hiep construction stone quarry, with the total additional amount the Company has to pay and has recognized in this year's operating results being VND 19,669,316,603. On 27/06/2025, the Regional Tax Branch XVI also issued Payment Notice No. 793/TB-CCTKV.XVI regarding the payment of the above additional fee for granting mineral mining rights, with the payment deadline being no later than 90 days from the issuance date of the notice by the Regional Tax Branch XVI.
- On 01/08/2025, the Company sent Official Letter No. 488/CTY-BĐT to relevant authorities petitioning the calculation of the additional fee for granting mineral mining rights at Tan Dong Hiep quarry. The Company requested the Department of Agriculture and Environment to consider, inspect, and review the recalculation of the mineral reserves subject to the additional mining right fee at Tan Dong Hiep quarry in order to submit to the Ho Chi Minh City People's Committee to adjust Decision No. 1527/QĐ-UBND dated 05/06/2025 in accordance with current regulations. Pending the completion of the inspection and review by the Department of Agriculture and Environment and its written response and conclusion, or until the Company's petitions are considered and resolved by competent authorities, the Company has made the payment to the State budget to ensure compliance with legal regulations.

(2) Detailed information relating to the State's recovery of land use rights in Lai Thieu Ward, Thuan An City, Binh Duong Province (currently Ho Chi Minh City)

- Pursuant to Decision No. 1385/QĐ-UBND dated 25/04/2022 issued by Thuan An City People's Committee on approving the compensation and support plan (phase 4) for site clearance of National Highway 13, the section from Tu Do junction to Le Hong Phong junction, Thuan Giao Ward; and
- Decision No. 8923/QĐ-UBND dated 27/12/2022 of the People's Committee of Thuan An City approving the compensation, support and resettlement plan (Phase 11) for the project of expansion of National Highway 13 (section from Tu Do junction to Le Hong Phong junction), Thuan Giao Ward, Thuan An City;
- The Company received compensation amounting to VND 3,289,630,440 for the State's recovery of land use rights in Lai Thieu Ward, Thuan An City, Binh Duong Province (currently Ho Chi Minh City). As at 30/06/2026, the Company had completed the procedures for site handover and concurrently derecognized the corresponding value of the recovered land use rights from intangible fixed assets.

38 . OTHER INFORMATION (CONTINUED):**(3) Lawsuit against Mien Dong Joint Stock Company**

- On 30/07/2025, the Company filed a lawsuit against Mien Dong JSC (“MDG”) with the People’s Court of Region 1 - Dong Nai, requesting MDG to settle the outstanding principal and late payment interest in relation to Construction Contract No. 03/02/2019/HĐ for the 18.22-ha Residential Area Project (Viva Park). Accordingly, the case was accepted by the Court on 11/12/2025;
- On 25/03/2026, the Court issued Decision No. 20/2026/QĐST-KDTM on suspension of the resolution of the case. Pursuant to this Decision, the Court determined that MDG had not breached its payment obligations to the Company because, under the payment terms stipulated in the contract, the Company would only be entitled to payment after MDG received payment from the investor (LDG Investment JSC). At the time of the proceedings, LDG had not yet made payment to MDG, and MDG was also in the process of requesting the competent authorities to enforce the judgment in respect of the amount due from LDG. Therefore, MDG did not yet have an obligation to make immediate payment to the Company;
- The Company’s Board of Management continues to monitor the progress of MDG’s judgment enforcement against LDG in order to take appropriate measures to recover the aforementioned outstanding principal and late payment interest.
